### Product Information

ProteinMax **MEGAFUEL** has been formulated to supply the athlete with adequate carbohydrates to facilitate the uptake of protein and to supply sufficient glycogen to assist in recovery process. This combination is ideal for sports people that need a high quality protein blend together with a carbohydrate blend, supported by free amino acids, digestive enzymes, vitamins and MSM. This unique formula of **MEGAFUEL** rates low on the Glycemic index (GI) < 45, when prepared with fat free milk. You may also prepare your serving of MegaFuel with water.

### Unique Benefits & features

- High Protein 43g per 100g serving
- Protein 43% / Carbohydrates 52%
- Very low Fat < 4%
- Added Glutamine Peptide
- Added Taurine
- MSM
- No Preservatives
- Very Low GI (Glycemic Index)

### Directions for use

Liquid Meal for Energy – Stamina – Recovery.

Use as low fat meal and as recovery meal within 30 min after exercise or event.

**50g serving:** Add 2 level scoops of ProteinMax Megafuel to 350 ml – 450 ml of water (or skimmed milk) in shaker or blender, shake well and enjoy.

**Liquid Meal for Energy – Power – Recovery.**

Use as low fat meal 2 to 3 times daily and as recovery meal within 30 min after exercise or event.

**100 g serving:** Add 3 heaped scoops of ProteinMax Megafuel to 450 ml of water (or skimmed milk) in shaker or blender, shake well and enjoy.

**Notice**

Consult with your healthcare professional for advice before taking any dietary supplement. Increase your daily water intake when using protein supplementation.

**Storage**

Close container firmly after use and store in a cool, dry place.
